

IN THE CLAIMS

Please maintain original claims 1 - 4 and add new claims 5 and 6 as follows:

1. (Original) An insulating plug, for a discharge lamp device, comprising:
a body having a front end portion and a rear end portion;
an arc tube, fixedly held at the front end portion; and
a lamp-side connector provided at the rear end portion, wherein said lamp-side connector
is arranged so that a power-supplying connector can be attached to and detached from said lamp-
side connector,

wherein said body is made of a glass-fiber-reinforced plastic.

2. (Original) An insulating plug as set forth in claim 1, wherein said glass-fiber-
reinforced plastic includes from 20 weight % to 80 weight % glass fibers contained in a
polyphenylene sulfide resin.

3. (Original) A discharge lamp device provided with an insulating plug as
defined in claim 1.

4. (Original) A discharge lamp device provided with an insulating plug as
defined in claim 2.

A1
5. (New) An insulating plug as set forth in claim 2, wherein said glass-fiber-
reinforced plastic includes from 40 weight % to 60 weight % glass fibers contained in a
polyphenylene sulfide resin.

6. (New) A discharge lamp device provided with an insulating plug as
defined in claim 5.
